

Intel® Unnati

AI Everywhere

March 15, 2024 9:30 am - 5:00 pm
at the **SERC Auditorium**

In collaboration with Supercomputer Education and Research Centre (SERC)
Indian Institute of Science, Bengaluru

Learn all about the latest developments in Generative AI

Highlights

- How you can run Generative AI workloads including LLMs and Vision-Transformers at scale using Intel® Gaudi®2 Accelerators
- How Intel® Xeon® processors will help you run classic Computer Vision workloads with lesser Total Costs of Ownership (TCOs)

Presentations and demos by Intel India technologists

AGENDA

09:30-10:00	Registration
10:00 - 10:30	Keynote Address
10:30 - 11:00	Intel AI Everywhere
11:00 - 11:15	Tea/Snacks
11:15 - 12:00	Intel® Gaudi®2 AI Accelerator: Motivations, Positioning, Differentiation, Vision, Mission
12:00 - 13:00	Programming Framework for Intel® Gaudi®2 Accelerators
13:00 - 14:00	Lunch
14:00 - 14:30	AI Workbench: Generative AI Industry Use Cases and Demos
14:30 - 15:00	Performance and Scalability for the Intel® Gaudi®2 Accelerators
15:00 - 15:30	Generative AI Models on Intel® Gaudi®2 Accelerators – Benchmarks, Applications
15:30 - 15:45	Tea/Snacks
15:45 - 16:15	Computer Vision and Vision Transformers
16:15 - 17:00	Closing Remarks & Continued Collaboration

LIMITED SEATS. REGISTRATION IS MANDATORY.
